Code Officer Scott Allen read the summary analysis.

Chairman Lindell requested the applicant to come up to the podium.

Applicant Ms. Andrea Pipes stated that he would like to request to extend her asphalt driveway by 374 square feet of impervious material. Ms. Pipes stated that when her dad visits who is disabled has a hard time trying to find parking even in the overflow spots.

Chairman Lindell asked did your Homeowners Association approve the expansion with no deed restrictions.

Ms. Pipes response that yes in a meeting and the end of last year it was stated that tenants whom have corner lots can have their driveways enlarged with the approval from the Town of Elsmere.

Chairman Lindell explained the difference between impervious versus pervious material and that if she had tried to get a price for that.

Ms. Pipes said that the Code Office suggested it, but Richard's paving suggested she may not need that.

Chairman Lindell suggested to make the additional driveway smaller in square footage. To design it with a half a driveway,

Several discussions were had about the additional driveway would take away one street parking on an area that already has parking issues.

Town Manager Giles stated that an 11 feet addition to the driveway takes away 16 feet of street parking due to a car cannot be parked with in 5 feet of the driveway.

Commissioner Steppi believes there is an NPDES issue and that we are not eliminating any impervious material. That design is not the issue.

ACTION: Commissioner Anderson made a motion to approve Petition 20-03, that it meets the harmonious development intent of Section 225-9 and that it is within the intent of the NPDES permit. The motion was seconded by Commissioner Nuschke.

Town Manager Giles and Mr. O'Neill both apologized in the delay in sending out the first draft. They both agreed it was miscommunication on both parties.
